Palisade's Focused Equity (formerly Focused All Cap Equity) strategy seeks to achieve attractive long-term performance by investing with high-conviction in a portfolio of approximately 20-30 companies that tend to compound shareholder value over the long-term.

We generally invest in companies that consistently generate strong free cash flow and above-average return on invested capital. Equally important to our process is to focus on companies that have strong track records of disciplined and effective capital deployment for internal growth initiatives and strategic acquisitions. To this end, we conduct rigorous, bottom-up, fundamental research to identify companies with leadership teams possessing outstanding operating talent, augmented by excellent portfolio management expertise.
